Paris, France | +33 7 45 60 56 48 | mbharadwajofficial@gmail.com | [LinkedIn](#) | [GitHub](#) | madhurjyabharadwaj.com

CAREER OBJECTIVE

Product Manager who owns products from discovery to production across enterprise, consumer e-commerce and data. Finds the real problem by talking to the people who use the product and reading the data alongside them, then prioritises hard and ships with small teams. Judges work by adoption and outcomes, not delivery dates.

EDUCATION

ESSEC Business School | Master in Management (Grande École) | Cergy, France 2023 – 2026

Relevant Coursework: Business Data Science, Python for Business, Managing AI, Corporate Strategy

Vellore Institute of Technology | B.Tech, Civil Engineering | CGPA: 8.48/10 (Top 15%ile) | Chennai, India 2016 – 2020

PROFESSIONAL EXPERIENCE

Air Liquide (Industrial Gases, €27B Revenue) Nov 2024 – Sep 2026

Product Manager Apprentice Paris, France

- **Shipped** a replacement enterprise system from discovery to live, as measured by a zero-downtime cutover and adoption across European field teams, by owning the PRDs, backlog and rollout, then owning reliability once it was running.
- **Shipped** a role-based secure-access feature, as measured by unblocking a contractual-data workflow no prior team had owned, by spotting the gap in a regional team and clearing it through Legal and IT governance.
- **Automated** monthly reporting via a Power BI dashboard consolidating multi-source operational data, cutting manual effort by **~40%** and giving leadership real-time KPI visibility.

L'Oréal Groupe (Top Global FMCG, €41B Revenue) Jan 2024 – Jun 2024

Data Product Owner Intern Paris, France

- **Shipped** a fuzzy-matching AI agent that dynamically allocates **1000+ brands across 4 universes**, automating a manual mapping workflow and unlocking near real-time portfolio visibility.
- **Rebuilt** analytics reporting for the **Top 20 markets**, as measured by one standardised set of Power BI dashboards, by writing the user stories and running the backlog to onboard Kantar, Nielsen and B2B sources into AWS.
- **Reconciled** conflicting category definitions across consolidators (Kantar, Nielsen, IQVIA) and **20+ markets** into one comparable market-share view, removing a recurring blocker to executive revenue decisions.

Spinny (Series E, Retail / E-commerce) Feb 2023 – Jun 2023

Business Analyst Gurgaon, India

- **Lifted** visit-to-token conversion **+10%** on Spinny's Hub mobile app, validated through an A/B test, by running discovery with frontline users and redesigning the flow that moved buyers from visit to token payment.
- **Cut** delivery cancellations **25%** by mining CRM leads data to reconstruct the token-to-delivery journey, isolating why customers cancelled after paying a deposit and handing the closure team a ranked set of cancellation drivers to run win-back against.

ZoomRx Inc. (Strategy Consulting, Life Sciences) May 2021 – Jan 2023

Associate Chennai, India

- **Ran** competitive benchmarking for global pharma clients (Janssen, GSK, Sanofi) on reach, share of voice and rep effectiveness, turning it into promotional recommendations.
- **Scoped** launch studies for new drugs, running cannibalisation analysis to show whether projected share would come from rivals or the client's own product.

PROJECTS (built end to end with AI coding tools; write-ups at madhurjyabharadwaj.com)

- **Out Loud, PM interview prep app (2026)** | [Live](#) | [Repo](#): Built a mobile interview coach for people who revise on the commute: installs from the browser, works fully offline with no account, and turns reading into practice through 68 scored questions and a 352-term glossary on spaced repetition.
- **Paris rent-control ROI tool (2026)** | [Repo](#): Built an investor tool that shows what a Paris flat actually returns once the legal rent cap applies, joining three open French datasets (DVF sales, DPE energy ratings, DRIHL rent zones) into 8,960 rent-zone records and ranking returns by budget and arrondissement on a map.
- **TeamZero, co-founder matching MVP (2026)** | [Live](#) | [Repo](#): Wrote the PRD and shipped a two-sided matching MVP for early-stage founders, with explainable weighted scoring and hard filters that show a reason for every match.
- **Also:** [Wavelength](#) (browser music player, synthesised catalogue) and [Virtua Justice](#) (Three.js arcade game), both on GitHub.
